To whom it may Concern

Dear Sirs,

**Wellacre Post 16 Vocational College, Flixton**

Reference	Project	Wellacre Post 16 Vocational College Flixton
	Value	£750,000.
	Programme	15 weeks

Cidon were appointed after strong competition with local framework contractors. The project consisted of a three storey concrete frame including roof with exposed concrete finishes, and in particular a full height feature atrium wall which required Cidon's successful input during the initial sample stage, combined with site visits of post and present contacts.

The architect Ansell & Bailey had set a demanding and clear challenge in terms of expectations, which was understood by Cidon Director Ciaran Donnelly from the onset. His personnel involvement from the start afforded John Turner & Sons and the Design Team the confidence in moving forward with them.

The combination of an all plant, materials and supervision package allowed us to free up staff resources and forward plan the works with little input required during their programme build. All crange and formwork support including temporary design was supplied and owned by Cidon. The project was well managed and completed on time and on budget.

We would not hesitate to use Cidon again and would happily recommend them in the future.

Yours faithfully  
**JOHN TURNER & SONS LIMITED**
